PRODUCT DATA BULLETIN

#773 KWIK-SET ROOF CEMENT AF

PURPOSE

Lucas #773 Kwik-Set Roof Cement is an asphalt based roof cement designed for building and repairing asphalt roofs and roof flashings. It is made from a harder and faster setting asphalt base than most standard roof cements.

PRODUCT DESCRIPTION

#773 Kwik-Set Roof Cement is manufactured from Type III roofing asphalt, non-asbestos reinforcing fibers, and petroleum solvents. This product is equal to our #771 Plastic Roof Cement in both durability and ease of application.

APPLICATION

The surface must be clean and dry. Apply #773 Kwik-Set Roof Cement evenly with a pointed roofer's trowel or gloved hand. #773 should be applied 1/8 to 1/4 of an inch thick and may be reinforced with glass membrane or polyester fabric for added strength. When making a permanent repair, open up any blisters and allow the area to dry thoroughly. Clean up with mineral spirits and waterless hand cleaner.

CAUTION

Combustible mixture, keep away from heat and open flames. Avoid prolonged contact with skin or fumes. If irritation occurs seek medical attention. Do not use near heat or open flame. Keep out of reach of children. Read MSDS prior to use.

#773 SPECIFICATION

Applicable Specification	ASTM D 4586 Type II, Asbestos Free
Viscosity	N/A
Recommended rate of application	1/8 to 1/4 inch thick
% Asphalt	60 min
% Solids	71 min
% Non-volatile	75 max
Weight per gallon	8 lbs.
Flash Point (TCC)	+100°F (38.7°C)
Container Sizes	1, 3.5, 5, 55
