

Issue Date 05-Sep-2023

SAFETY DATA SHEET

Version 1

This safety data sheet complies with the requirements of: 29CFR1910.1200

| <u>Product identifier</u> Product Name | Aluminum Coating |
|---|--|
| Other means of identification | |
| Product Code | LUCAS 608 |
| UN/ID no. | 1993 |
| Synonyms | Roof Coating |
| | |
| Recommended use of the chemica | al and restrictions on use |
| Recommended Use | Reflective Roof Coating. |
| Uses advised against | For exterior use only. Do not use indoors. |
| | |
| Details of the supplier of the safet | <u>y data sheet</u> |
| Manufacturer Address | R.M. Lucas Company |
| | 12400 South Laramie Ave |
| | Alsip, Illnois 60803 |
| | (773) 523-4300 |
| Emergency telephone number | |
| Emergency Telephone | Call CHEMTREC Day or Night: |
| | |

2. HAZARDS IDENTIFICATION

Revision Date 05-Sep-2023

Classification

OSHA Regulatory Status

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Within USA and Canada: 1-800 424-9300

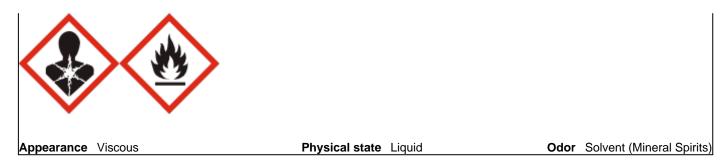

| Germ cell mutagenicity | Category 1B |
|--|-------------|
| Carcinogenicity | Category 1B |
| Specific target organ toxicity (repeated exposure) | Category 1 |
| Aspiration toxicity | Category 1 |
| Flammable liquids | Category 3 |

Label elements

Emergency Overview

Danger

Hazard statements May cause genetic defects May cause cancer Causes damage to organs through prolonged or repeated exposure May be fatal if swallowed and enters airways Flammable liquid and vapor

Precautionary Statements - Prevention

Obtain special instructions before use Do not handle until all safety precautions have been read and understood Use personal protective equipment as required Do not breathe dust/fume/gas/mist/vapors/spray Wash face, hands and any exposed skin thoroughly after handling Do not eat, drink or smoke when using this product Keep away from heat/sparks/open flames/hot surfaces. - No smoking Keep container tightly closed when product is not in use. Ground/bond container and receiving equipment Use explosion-proof electrical/ventilating/lighting/equipment Use only non-sparking tools Take precautionary measures against static discharge

Precautionary Statements - Response

IF exposed or concerned: Get medical advice/attention IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician Do NOT induce vomiting In case of fire: Use CO2, dry chemical, or foam for extinction

Precautionary Statements - Storage

Store locked up Store in a well-ventilated place. Keep cool

Precautionary Statements - Disposal

Disposal should be in accordance with applicable local, regional, national and international laws and regulations.

Hazards not otherwise classified (HNOC)

Not applicable

Other Information

Toxic to aquatic life with long lasting effects
Unknown acute toxicity
35% of the mixture consists of ingredient(s) of unknown toxicity

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance

<u>Mixture</u> This product is a mixture. This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

| Common name | Aluminur |
|-----------------|----------|
| Synonyms | Roof Coa |
| Chemical nature | Organic |

Aluminum Roof Coating. Roof Coating. Organic solvents and additives.

| Chemical Name | CAS No. | Weight-% | Trade Secret |
|---------------------------------------|-----------|----------|--------------|
| Mineral Spirits (with < 0.1% Benzene) | 8052-41-3 | 30 - 40% | * |
| Asphalt (at Ambient Temperature) | 8052-42-4 | 20 - 30% | * |

| Aluminum Powder | 7429-90-5 | 10 - 20% | * |
|---|------------|----------|---|
| Naphtha, petroleum, hydrodesulfurized heavy | 64742-82-1 | 0 - 10% | * |
| Nonane | 111-84-2 | 0 - 10% | * |
| Trimethyl Benzene (mixed Isomers) | 25551-13-7 | 0 - 10% | * |

4. FIRST AID MEASURES

Description of first aid measures

| General advice | Contains petroleum distillate. Harmful or fatal if swallowed.Vapor harmful. May affect the brain or central nervous system causing dizziness, headache, or nausea. Reports have associated repeated and prolonged occupational exposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling contents may be harmful or fatal. | | |
|--|---|--|--|
| Eye contact | In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. | | |
| Skin contact | Wash thoroughly with soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing before reuse. In the case of skin irritation or allergic reactions see a physician. | | |
| Inhalation | Move to fresh air in case of accidental inhalation of vapors. If continued difficulty with breathing is experienced, get medical attention immediately. | | |
| Ingestion | Not an expected route of exposure. If swallowed, do not induce vomiting. Get medical attention immediately. | | |
| Self-protection of the first aider | First aider: Pay attention to self-protection!. | | |
| Most important symptoms and effe | Most important symptoms and effects, both acute and delayed | | |
| Symptoms | May cause skin irritation. May cause eye irritation. | | |
| Indication of any immediate medical attention and special treatment needed | | | |
| Note to physicians | Treat symptomatically. | | |
| 5. FIRE-FIGHTING MEASURES | | | |

Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Dry chemical. Carbon dioxide (CO2). Sand. Use foam or water FOG as a last resort.

Unsuitable extinguishing media Do not use a solid water stream as it may scatter and spread fire.

Specific hazards arising from the chemical

Sealed container may rupture/burst when heated or exposed to excessive heat.

Hazardous combustion products Thermal decomposition (burning) may release irritating, corrosive and/or toxic gases, vapors and fumes.

Explosion dataSensitivity to Mechanical Impact Not sensitive.Sensitivity to Static DischargeMay be ignited by heat, sparks or flames.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

| Personal precautions | No action should be taken involving any personal risk or without suitable training. Use personal protective equipment as required. | | |
|--|---|--|--|
| Other Information | Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). | | |
| For emergency responders | Use personal protection recommended in Section 8. | | |
| Environmental precautions | | | |
| Environmental precautions | Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent product from entering sewers, drains, or waterways. Local authorities should be advised if significant spillages can not be contained. See Section 12 for additional ecological information. | | |
| Methods and material for containme | ent and cleaning up | | |
| Methods for containment | Contain spillage with non-combustible absorbent material, e.g. sand, earth, diatomaceous earth, vermiculite. | | |
| Methods for cleaning up | Pick up the absorbed material (described just above) and transfer to properly labeled containers for disposal according to local / national regulations (see Section 13). | | |
| Prevention of secondary hazards | Clean contaminated objects and areas thoroughly observing environmental regulations. | | |
| | 7. HANDLING AND STORAGE | | |
| Precautions for safe handling | | | |
| Advice on safe handling | Use personal protective equipment as required. Remove all sources of ignition. Use only outdoors. | | |
| Conditions for safe storage, including any incompatibilities | | | |
| Storage Conditions | Keep containers tightly closed in a cool, dry, well-ventilated place. Keep away from heat, sparks, flame and other sources of ignition. | | |
| Incompatible materials | Strong acids. Strong oxidizing agents. | | |

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Guidelines

No ACGIH or OSHA PEL is assigned to this mixture.

Exposure limits for the component materials are shown below. UN 1993. This product, as supplied, is not believed to contain any hazardous material that exceeds exposure limits established by OSHA.

| Chemical Name | ACGIH TLV | OSHA PEL | NIOSH IDLH |
|----------------------------------|--|---|--|
| Mineral Spirits (with < 0.1% | TWA: 100 ppm | TWA: 500 ppm | IDLH: 20000 mg/m ³ |
| Benzene) | | TWA: 2900 mg/m ³ | Ceiling: 1800 mg/m ³ 15 min |
| 8052-41-3 | | (vacated) TWA: 100 ppm | TWA: 350 mg/m ³ |
| | | (vacated) TWA: 525 mg/m ³ | |
| Asphalt (at Ambient Temperature) | TWA: 0.5 mg/m ³ benzene-soluble | - | Ceiling: 5 mg/m ³ fume 15 min |
| 8052-42-4 | aerosol fume, inhalable particulate | | |
| | matter | | |
| Aluminum Powder | TWA: 1 mg/m ³ respirable | TWA: 15 mg/m ³ total dust | TWA: 10 mg/m ³ total dust |
| 7429-90-5 | particulate matter | TWA: 5 mg/m ³ respirable fraction | TWA: 5 mg/m ³ respirable dust |
| | | (vacated) TWA: 15 mg/m ³ total | TWA: 5 mg/m ³ Al |
| | | dust | - |
| | | (vacated) TWA: 5 mg/m ³ respirable | |
| | | fraction | |
| | | (vacated) TWA: 5 mg/m ³ Al | |

| | | Aluminum | |
|-----------------------------------|--------------|---------------------------------------|-----------------------------|
| Nonane | TWA: 200 ppm | (vacated) TWA: 200 ppm | TWA: 200 ppm |
| 111-84-2 | | (vacated) TWA: 1050 mg/m ³ | TWA: 1050 mg/m ³ |
| Trimethyl Benzene (mixed Isomers) | TWA: 25 ppm | (vacated) TWA: 25 ppm | - |
| 25551-13-7 | | (vacated) TWA: 125 mg/m ³ | |

Appropriate engineering controls

Engineering Controls Use natural cross ventilation, local (mechanical) pick-up, and/or general area mechanical cross ventilation. Ventilation pattern should be designed to prevent accumulation of vapors. Ventilation must be sufficient to maintain vapor concentrations below the TWA limits outlined above.

Individual protection measures, such as personal protective equipment

| Eye/face protection | Wear safety glasses with side shields (or goggles). |
|--------------------------------|---|
| Skin and body protection | Wear protective gloves and protective clothing that is resistant to chemical penetration. |
| Respiratory protection | No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, a NIOSH/MSHA approved respiratory protection should be worn. |
| General Hygiene Considerations | Wash face, hands and any exposed skin thoroughly after handling. Wash contaminated clothing before reuse. |

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

| Physical state Appearance Color | Liquid Viscous Aluminum (Silver) | Odor Odor threshold | Solvent (Mineral Spirits) 1-30 PPM. Odor thresholds vary greatly. Do not rely on odor threshold alone to determine potentially hazardous substances. |
|--|---|-----------------------------------|--|

None

10. STABILITY AND REACTIVITY

Reactivity Not applicable

Not applicable

Chemical stability Stable.

Possibility of Hazardous Reactions

None under normal use.

Hazardous polymerization

Hazardous polymerization does not occur.

Conditions to avoid

Avoid static discharge. Avoid heat, sparks, and open flame.

Incompatible materials

Strong acids. Strong oxidizing agents.

Hazardous Decomposition Products

Combustion may produce carbon monoxide, carbon dioxide, and other asphyxiants.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

| Product Information | | Toxicological testing has not been conducted for this product overall. Available toxicological data for individualingredients are summarized below. | | |
|---|---|---|------------------------|--|
| Inhalation | Avoid breathing vapors or | Avoid breathing vapors or mists. | | |
| Eye contact | Avoid contact with eyes. C | Contact with eyes may cause irrita | ation. | |
| Skin contact | May cause irritation. | | | |
| Ingestion | If swallowed, do not induct route of exposure. | If swallowed, do not induce vomiting. Get medical attention immediately. Not an expected route of exposure. | | |
| Component Information | as 'Group 2B, Possible Ca exposure to Asphalt fumes temperature plays an import carcinogenic potential of b non volatile at ambient ten demonstrate that Asphalt a normal use of this product | * The IARC Monograph (Vol. 103, 2013, Bitumen and Bitumen Emissions) defines Asphalt as 'Group 2B, Possible Carcinogen to Humans'. This definition is based on studies of exposure to Asphalt fumes at elevated temperatures. The Monograph states that temperature plays an important role in determining the degree of exposure and also the carcinogenic potential of bitumen emissions. This same Monograph states that Asphalt is non volatile at ambient temperature. There is no data presented in the Monograph to demonstrate that Asphalt at ambient temperature is considered a carcinogen. Since the normal use of this product is at ambient temperature, the Asphalt used in this product is not listed as a carcinogen. No other national or international agency has defined Asphalt as a | | |
